

**BRIOCEAN**

# **Your Preferred Supplier in Electronic Component Sourcing**

# About Briocean

Briocean was established in 2008 as ISO14001, ISO9001:2015, AS9120B and ANSI/ESDS20.20-2021 certified leading independent electronic component distributor, with our headquarters in Singapore. Our company specialises in insourcing and supply chain management services for the electronics manufacturing clients across a broad range of industries.

Our global network of over 10,000 vetted suppliers allows us to respond to the unique needs of our clients, from reducing component shortages to achieving significant cost savings.

Our robust supplier management system and two state-of-the-art quality assurance centres in Shenzhen and Hong Kong ensure that we deliver reliable, traceable procurement services.

At Briocean, quality is our cornerstone. Our commitment is to ensure that every component we source is of the highest quality.

5-Year Warranty

Market Intelligence

# Services

## Cost Reduction

Achieve significant cost savings through our advanced strategic sourcing and procurement optimisation.

## Obsolescence Management

Ensure business continuity by addressing obsolescence challenges with our expertise.

## Global Sourcing

Benefit from our extensive network of over 10,000 vetted global suppliers, ensuring reliable shortage sourcing and PPV solutions.

## Excess Inventory Management

Optimise your inventory turnover and enhance ROI with our specialised inventory management solutions.

# Industries Served

# Product Categories

Comprehensive application across the electronic manufacturing industry.

Integrated Circuits (ICs)

Discrete Semiconductor Products

Circuit Protection

Sensors, Transducers

Connectors, Interconnects

Capacitors

Resistors

Relays

Isolators

Memory Cards, Modules

Power Supplies - Board Mount

RF/IF and RFID

Memory

SSD

CPU/GPU

FPGA

MCU

# Top Selling Brands

Our extensive global network of over 10,000 vetted suppliers enables us to provide high-quality authentic components in the shortest possible time.

# 4-Tier Quality Inspection Process

Briocean meticulously inspects, verifies, and tests each component to ensure that it meets the required quality standards, beginning with the label and packaging. It is our responsibility to ensure the quality, reliability, and excellence of each component we source for our manufacturing clients.

**Our multi-tiered inspection process allows Briocean to source high-quality electronic components that are authentic.**

**TIER 01**

Labelling and  
Packaging  
Verification

**TIER 02**

Visual and  
Marking  
Inspection

**TIER 03**

Functional  
Testing

**TIER 04**

Third Party  
Inspection

**OBTAIN A DETAILED REPORT WITHIN TWO HOURS**

# Quality Assurance

Our thorough quality inspection process consists of ten professional testing services to ensure there are no defects or abnormalities that go undetected for the components we sourced.

# Inspection Equipment

Using the most advanced functionality and authenticity inspection equipment, Briocean's quality assurance facilities can manage electronic component testing programmes for any project.

\*Not limited to the above-mentioned equipment

# Supplier Management

Brioclean has developed a professional and systematic Supplier Management System (SMS) to assess the reliability of our suppliers and ensure quality in the procurement and delivery processes. With the aid of a comprehensive and scientific database, we conduct regular assessments to effectively track the performance of our suppliers in terms of delivery, quality, and stability, as well as to identify relevant supplier risks in a timely manner.

Suppliers will only be reflected in Brioclean's Supplier Management System once they have passed the auditing process. Brioclean then implements the management method of classification by categorising and grading its suppliers.

# 8D After-sales Customer Management System

At Brioccean, we are dedicated to delivering prompt, professional, and effective customer service. We exceed expectations in order fulfilment by offering exceptional customer support. Utilising the 8D problem-solving methodology, we have developed and optimised our 8D After-sales Customer Management System. This approach enhances after-sales service efficiency, drives quality improvement, and significantly boosts customer satisfaction. Our effective system enables us to address customer concerns swiftly and efficiently, ensuring timely solutions and assured satisfaction.
